↓ 1/9 ≡ ✕

add another column

when focusing on a table-cell, give options to

- drag/drop
- delete (provide a 'are you sure' prompt)

that row/column.

Columns also get a option to sort in ascending/descending. Only one column can get this applied.

Min of 1 'score' column is required.

add another row

when focusing on a table-cell, give options to

- drag/drop
- delete (provide a 'are you sure' prompt)

that row/column

the 'name' column cannot be removed or relocated. Allow sorting
